575		Implimentation of RSA on reconfigurable hardware							Proj. Report	CD/DVD
576		Multiobjective Optimization control synthesis for mimo systems							Proj. Report	CD/DVD
577		Air Car Encyclopedia							Proj. Report	CD/DVD
578		The Tesla Turbine							Proj. Report	CD/DVD
579		Pressure Distribution on Head & Stern of a Ship in Motion							Proj. Report	CD/DVD
580		Real Time Implementation of Adaptive LMS Filter on Embedded platform							Proj. Report	CD/DVD
581		Algorithm Development for In-Flight control of Quadrotor UAV							Proj. Report	CD/DVD
582		Simulator of Flow Field Around NACA Airfolls and its application to horizontal axis wind turbines							Proj. Report	CD/DVD
583		Implementation of effect modular exponentiation on reconfigurable plateforms							Proj. Report	CD/DVD
584		Heat exchanger segment of PNEC CSP Plant							Proj. Report	CD/DVD
585		Heat exchanger segment of PNEC CSP Plant							Proj. Report	CD/DVD
586		Design & Fabrication of stirling cycle engine							Proj. Report	CD/DVD
587		An exploratory analysis of supplier development in Pakistan's Manufacturing Industry							Proj. Report	CD/DVD
588		Design & Fabrication of solid oxide fuel cell							Proj. Report	CD/DVD
589		Design & Fabrication of solid oxide fuel cell							Proj. Report	CD/DVD
590		To analyse the impact of incduction of MESMA Section (Air independent Propulsion System) in the PNS/MS. In which pressure drop & Flow rates & Subsequent powerloss have to be calculated through the fluient, ACFD Software							Proj. Report	CD/DVD
591		An efficient look-up-table implimentation of AES using virtex-5 FPGA							Proj. Report	CD/DVD
592		Determination of drag forces on a moving underwater neutrally Buoyant Towed Object (cable) with the help of computational fluid dynamics							Proj. Report	CD/DVD
593		Design & Optimization of forging dies for yamaha motorcycle parts							Proj. Report	CD/DVD
594		Design & Optimization of forging dies for yamaha motorcycle parts							Proj. Report	CD/DVD
595		Design & Fabrication of a low cost solar trading system							Proj. Report	CD/DVD
596		Design Fabrication and testing of a water hydrolyser for imporving performance of a car (270)							Proj. Report	CD/DVD
597		Design Fabrication and testing of a water hydrolyser for imporving performance of a car (270)							Proj. Report	CD/DVD
598		Conversion of underwater current enery into electrical energy using VIV ACE converter							Proj. Report	CD/DVD
599		Conversion of underwater current enery into electrical energy using VIV ACE converter							Proj. Report	CD/DVD
600		Theoritical Modeling & Design optimization of a broadband Antenna for Maritime Stations							Proj. Report	CD/DVD
601		Dynamic behavior of an automobile & Stress analysis of chasis by finite element method							Proj. Report	CD/DVD
602		Numerical study of the effect of variation in tip clearnace & axial gap between rotor & stator of multistage axial compressor							Proj. Report	CD/DVD
603		Study of active noise control techniques employing adaptive algorithms							Proj. Report	CD/DVD
604		Unsteady analysis of tandem bladed centrifugal compressor							Proj. Report	CD/DVD
605		Numerical study of pressure distribution in casing treatments of Gas Turbine							Proj. Report	CD/DVD

606		Design & Simulation of diesel particulate filter (DPF) for retrofitting on existing diesel driven vehicles							Proj. Report	CD/DVD
607		Design & Fabrication of a prototype vehicle							Proj. Report	CD/DVD
608		Design, Optimization & analysis of centre-fed vertically pollarized inverted V antenna for MF communication using genetic algorithm							Proj. Report	CD/DVD
